Template Version Last Updated Date

40 CFR Part 60, Subpart OOOOa Standards of Performance for Crude Oil and Natural Gas Facilities for which Constructio 2015 - §60.5420a Annual Report Spreadsheet Template

### Instructions for Spreadsheet Template

#### Purpose:

This spreadsheet template was designed by the U.S. EPA to facilitate annual reporting for Oil and Gas Facilities under 40 C Central Data Exchange (https://cdx.epa.gov)

#### Electronic reporting:

Electronic submission of annual reports through the EPA's Compliance and Emissions Data Reporting (CEDRI) is required u

The CEDRI spreadsheet template upload feature allows you to submit data in a single report for a single facility or multiple workbook. Data for the site(s) must be entered into the worksheet labeled "Site Information" in this Excel workbook. Each single site. The Site Record No. will be used to match the information on each tab to the appropriate site.

IMPORTANT: For each site/facility record found in the "Site Information" worksheet, you may refere for each citation found in the workbook or provide individual file names for each individual citation re provide both as an example.

The spreadsheet must be uploaded into CEDRI as a single ZIP file, which must include this Excel workb any of the worksheets found in the workbook (e.g., the Certification file found in the "Site Information")

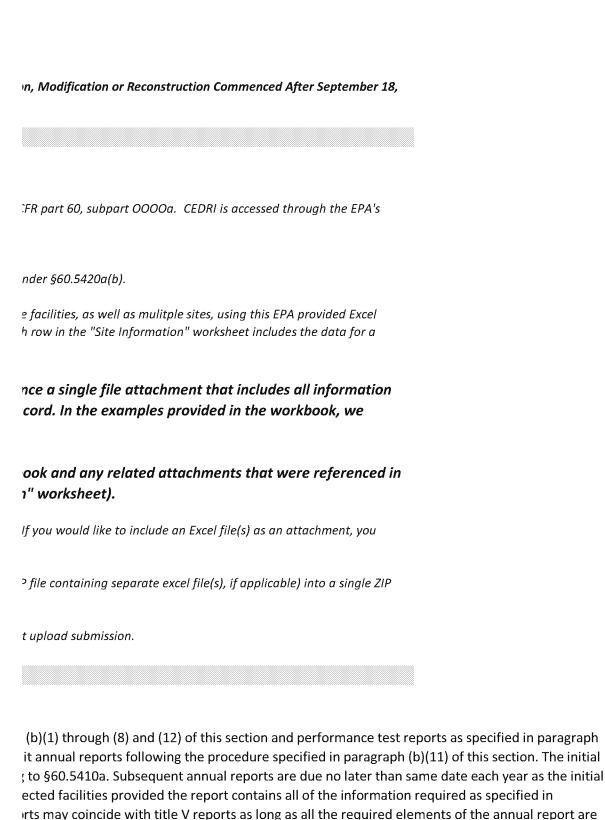

Note: If you are uploading file attachments for your report, the uploaded files may be in any format (e.g., zip, docx, PDF). must first zip the excel file(s) into a separate ZIP file to the master ZIP file that will be uploaded into CEDRI.

Once all data have been entered in the worksheet, combine this Excel workbook and all attachment files (including any ZII file for upload to CEDRI.

Please ensure your report includes all of the required data elements found in the listed citations below for this spreadshee specified in paragraph (b)(11) of this section.

# §60.5420a What are my notification, reporting, and recordkeeping requirements? \*\*\*

(b) Reporting requirements. You must submit annual reports containing the information specified in paragraphs (b)(9) or (10) of this section, if applicable, except as provided in paragraph (b)(13) of this section. You must submannual report is due no later than 90 days after the end of the initial compliance period as determined according annual report. If you own or operate more than one affected facility, you may submit one report for multiple aff paragraphs (b)(1) through (8) of this section, except as provided in paragraph (b)(13) of this section. Annual repo

included. You may arrange with the Administrator a common schedule on which reports required by this part may

- (1) The general information specified in paragraphs (b)(1)(i) through (iv) of this section for all reports.
- (i) The company name, facility site name associated with the affected facility, US Well ID or US Well ID associated available for the site, include a description of the site location and provide the latitude and longitude coordinate the North American Datum of 1983.
- (ii) An identification of each affected facility being included in the annual report.
- (iii) Beginning and ending dates of the reporting period.
- (iv) A certification by a certifying official of truth, accuracy, and completeness. This certification shall state that, k in the document are true, accurate, and complete.
- (2) For each well affected facility, the information in paragraphs (b)(2)(i) through (iii) of this section.
- (i) Records of each well completion operation as specified in paragraphs (c)(1)(i) through (iv) and (vi) of this secti submitting the records specified in paragraph (c)(1)(i) through (iv) of this section, the owner or operator may suk and the records required by paragraph (c)(1)(v) of this section for each well completion.
- (ii) Records of deviations specified in paragraph (c)(1)(ii) of this section that occurred during the reporting perioc
- (iii) Records specified in paragraph (c)(1)(vii) of this section, if applicable, that support a determination under 60
- (3) For each centrifugal compressor affected facility, the information specified in paragraphs (b)(3)(i) through (iv
- (i) An identification of each centrifugal compressor using a wet seal system constructed, modified or reconstruct
- (ii) Records of deviations specified in paragraph (c)(2) of this section that occurred during the reporting period.
- (iii) If required to comply with §60.5380a(a)(2), the records specified in paragraphs (c)(6) through (11) of this sec
- (iv) If complying with §60.5380a(a)(1) with a control device tested under §60.5413a(d) which meets the criteria i this section for each centrifugal compressor using a wet seal system constructed, modified or reconstructed duri
- (4) For each reciprocating compressor affected facility, the information specified in paragraphs (b)(4)(i) and (ii) o
- (i) The cumulative number of hours of operation or the number of months since initial startup or since the previous statement that emissions from the rod packing are being routed to a process through a closed vent system unde
- (ii) Records of deviations specified in paragraph (c)(3)(iii) of this section that occurred during the reporting period
- (5) For each pneumatic controller affected facility, the information specified in paragraphs (b)(5)(i) through (iii) c
- (i) An identification of each pneumatic controller constructed, modified or reconstructed during the reporting pe
- (ii) If applicable, documentation that the use of pneumatic controller affected facilities with a natural gas bleed r
- (iii) Records of deviations specified in paragraph (c)(4)(v) of this section that occurred during the reporting perior
- (6) For each storage vessel affected facility, the information in paragraphs (b)(6)(i) through (vii) of this section.
- (i) An identification, including the location, of each storage vessel affected facility for which construction, modificusts vessel shall be in latitude and longitude coordinates in decimal degrees to an accuracy and precision of five (5) d
- (ii) Documentation of the VOC emission rate determination according to §60.5365a(e) for each storage vessel th reporting period.
- (iii) Records of deviations specified in paragraph (c)(5)(iii) of this section that occurred during the reporting peric
- (iv) A statement that you have met the requirements specified in §60.5410a(h)(2) and (3).
- (v) You must identify each storage vessel affected facility that is removed from service during the reporting peric removed from service.
- (vi) You must identify each storage vessel affected facility returned to service during the reporting period as species versice.
- (vii) If complying with §60.5395a(a)(2) with a control device tested under §60.5413a(d) which meets the criteria

ay be submitted as long as the schedule does not extend the reporting period. d with the affected facility, if applicable, and address of the affected facility. If an address is not s of the site in decimal degrees to an accuracy and precision of five (5) decimals of a degree using pased on information and belief formed after reasonable inquiry, the statements and information on, if applicable, for each well affected facility conducted during the reporting period. In lieu of omit a list of the well completions with hydraulic fracturing completed during the reporting period 1. .5432a that the well affected facility is a low pressure well as defined in 60.5430a. ) of this section. ed during the reporting period. tion. n §60.5413a(d)(11) and §60.5413a(e), records specified in paragraph (c)(2)(i) through (c)(2)(vii) of ng the reporting period. f this section. ous reciprocating compressor rod packing replacement, whichever is later. Alternatively, a r negative pressure. d. of this section. eriod, including the identification information specified in §60.5390a(b)(2) or (c)(2). ate greater than 6 standard cubic feet per hour are required and the reasons why. d. cation or reconstruction commenced during the reporting period. The location of the storage ecimals of a degree using the North American Datum of 1983. at became an affected facility during the reporting period or is returned to service during the

od as specified in §60.5395a(c)(1)(ii), including the date the storage vessel affected facility was cified in §60.5395a(c)(3), including the date the storage vessel affected facility was returned to in §60.5413a(d)(11) and §60.5413a(e), records specified in paragraphs (c)(5)(vi)(A) through (F) of

this section for each storage vessel constructed, modified, reconstructed or returned to service during the repor-

- (7) For the collection of fugitive emissions components at each well site and the collection of fugitive emissions of monitoring survey including the information specified in paragraphs (b)(7)(i) through (xii) of this section. For the waived under §60.5397a(g)(5), you must include in your annual report the fact that a monitoring survey was waived.
- (i) Date of the survey.
- (ii) Beginning and end time of the survey.
- (iii) Name of operator(s) performing survey. If the survey is performed by optical gas imaging, you must note the
- (iv) Ambient temperature, sky conditions, and maximum wind speed at the time of the survey.
- (v) Monitoring instrument used.
- (vi) Any deviations from the monitoring plan or a statement that there were no deviations from the monitoring  $\mathfrak p$
- (vii) Number and type of components for which fugitive emissions were detected.
- (viii) Number and type of fugitive emissions components that were not repaired as required in §60.5397a(h).
- (ix) Number and type of difficult-to-monitor and unsafe-to-monitor fugitive emission components monitored.
- (x) The date of successful repair of the fugitive emissions component.
- (xi) Number and type of fugitive emission components placed on delay of repair and explanation for each delay of
- (xii) Type of instrument used to resurvey a repaired fugitive emissions component that could not be repaired du
- (8) For each pneumatic pump affected facility, the information specified in paragraphs (b)(8)(i) through (iii) of th
- (i) For each pneumatic pump that is constructed, modified or reconstructed during the reporting period, you mu paragraphs (b)(8)(i)(A), (B) or (C) of this section.
- (A) No control device or process is available on site.
- (B) A control device or process is available on site and the owner or operator has determined in accordance with device or process.
- (C) Emissions from the pneumatic pump are routed to a control device or process. If the control device is designed to achieve.
- (ii) For any pneumatic pump affected facility which has been previously reported as required under paragraph (k reporting period, provide the identification of the pneumatic pump affected facility and the date it was previous paragraphs (b)(8)(ii)(A), (B) or (C) or (D) of this section.
- (A) A control device has been added to the location and the pneumatic pump now reports according to paragrap
- (B) A control device has been added to the location and the pneumatic pump affected facility now reports accord
- (C) A control device or process has been removed from the location or otherwise is no longer available and the p
- (D) A control device or process has been removed from the location or is otherwise no longer available and the c evaluation that it is technically infeasible to capture and route the emissions to another control device or proces
- (iii) Records of deviations specified in paragraph (c)(16)(ii) of this section that occurred during the reporting periods:

  \*\*\*
- (12) You must submit the certification signed by the qualified professional engineer according to §60.5411a(d) for
- (11) You must submit reports to the EPA via the CEDRI. (CEDRI can be accessed through the EPA's CDX (https://ca alternate electronic file format consistent with the extensible markup language (XML) schema listed on the CEDI is not available in CEDRI at the time that the report is due, you must submit the report to the Administrator at the calendar days, you must begin submitting all subsequent reports via CEDRI. The reports must be submitted by the submitted.
